

UNIQUE IN ETNA COFFEE MACHINES: THE BRAUMANN BREWER

We manage the best coffee technique with our own reliable espresso brew system: the Braumann brewer. Developed specifically for ETNA by the Swiss technical engineer Jorg Braumann. Globally unique.

The Braumann brewer is the heart of all medium and large machines and the new ETNA Sagitta. It's here that the freshly ground coffee converges with the hot water, in perfectly balanced proportions, under the right pressure and at the right temperature. This unparalleled, sound brewer is positioned in a robust metal housing unit capable of bearing the pressure of the brewing process.

ETNA's engineers have both knowledge and experience and select the best components and materials. Combined with our drive for innovation and perfection, our craftsmanship results in reliable coffee machines that brew the perfect cup of coffee time and time again.

+
SWISS CRAFTSMANSHIP
PERFECT AND AS RELIABLE AS A SWISS WATCH

The heart of all medium and large ETNA Espresso machines

SIMPLY UNSTOPPABLE

TRIPLE R: REDUCE - REPAIR - REUSE

An ETNA coffee machine is always the responsible choice. Even after purchase: our machines are very reliable, have a long service life - of at least 8 years - and vital parts are easy to repair or replace. This ensures low maintenance and service costs. And delicious coffee, guaranteed!

- Long service life & low maintenance costs.
- Machine is 97% recyclable at the end of its service life.
- Packaging is 80% recycled FSC certified cardboard.
- Energy efficient: energy label A+, energy-saving mode is enabled by default.

Extend the ultimate taste experience with a pre-heated cup.

YOUR TOTAL SOLUTION

FOR HOSPITALITY & OFFICE ENVIRONMENTS

The ETNA Sagitta offers your guests or employees the ultimate coffee experience. Perfect for wherever reliable quality and beautiful design are the standard, such as a buffet room, restaurant or stylish office. Used in combination with the ETNA Sagitta MilkBase, you will also be assured of consistent quality milk foam at the touch of a button. Extend the ultimate taste experience by serving the coffee in a pre-heated cup.

ETNA SAGITTA

THE NEXT GENERATION ESPRESSO MACHINES

Made in Holland

MEET THE ETNA SAGITTA

A beautiful design and compact size, 10" Smart Touchscreen with your own logo or message, stainless steel grid, and many useful features. Incorporates proven technology and high-quality components. Available in Noble Bronze and Anthracite Grey. That is the new ETNA Sagitta espresso coffee machine.

MADE IN HOLLAND

ETNA Sagitta was engineered and developed by our in-house Research & Development team and is assembled by a team of committed employees, at ETNA's production facility in the east of the Netherlands. Our ambition is for our facility to be 100% CO₂ neutral by 2030.

ALSO AVAILABLE IN ANTHRACITE GREY.

Good coffee makes people feel appreciated.

AVAILABLE COLOURS

MODULAR DESIGN

ETNA Sagitta can be tailored to the user's requirements. With one or two bean containers and grinders, and with none, one or two instant containers.

Depending on the required range of beverages, ETNA Sagitta can be used with or without MilkBase for fresh milk.

ETNA SAGITTA: IS FULLY CUSTOMIZABLE.

HEIGHT-ADJUSTABLE SPOUT

The height-adjustable spout can be manually adjusted as required. Then simply select the desired drink and let the machine do the rest. All the heat stays in the cup, without splashing. In short: optimum in-cup quality.

ETNA SAGITTA FEATURES AN ATTRACTIVE DISPENSER LIGHT.
